## Work Experience

### UI and UX Designer

- Oxford University, Department for Continuing Education
- Oxford, United Kingdom
- June 2020 – current

In this position my main focus is the design of user interfaces, interactive page elements and media assets for our online university courses. I also engage with creating valuable user experience across our pages. I use Adobe Suite software e.g. Photoshop and Illustrator on a daily basis. I am also responsible for basic front end development and thus I have some understanding of HTML, CSS and JavaScript.

### Data Visualisation Analyst

- WSP
- Manchester, United Kingdom
- January 2017 – May 2020

As part of the GIS (Geographical Information Systems) team my job was about visualising spatial data for large-scale infrastructure projects.

## Education

### MSc in Cartography

- Eotvos Lorand University
- Budapest, Hungary
- September 2014 – July 2016

I studied cartography in university where I learned about communicating complex information in a visual language for a broad audience. I use this knowledge in my work daily.

### BSc in Earth Sciences, Cartography specialisation

- Eotvos Lorand University
- Budapest, Hungary
- September 2011 – July 2014
